Main Products	Machinery Casting Moulds
Comments	Our company was founded in 1996 in Konya by the technical teacher A. Yavuz Akay. We share our technical knowledge and experience with our students and serve our industry with its 16 technical staffs. In addition to its human-oriented work, it closely monitors the rapidly advancing technology and reflects the latest technology to its personnel and customers. In 2009, 800m2 closed area of the new location, moving to the customers in a short time, quality model design, continuous production of machinery and equipment in order to please the production continues. We can produce wooden, araldite, aluminum, styrofoam, hand mold, sinto automatic molding, lempe, protex, akdere, spade machines. Our model design is done by CAD drawing and after customer approval, 2 units (X: 1300 Y: 650 Z: 550) CNC vertical machining 1 bridged CNC (x: 4000 y: 2000 z: 850) 1 CNC vertical machining center (X: 2200 Y: 1000 Z: 900) 1 CNC CNC vertical machining center (x: 1300 y: 700 z: 650) 1 CNC CNC vertical machining center (x: 1300 y: 1100 z: 750) is processed with CAM program at the workbench, wood model workshop is completed by connecting the gating design. We are proud of being a supplier company for taking part in team spirit with domestic and foreign projects of our customers. Our company has taken the place it deserves in its sector with the responsibility and happiness of ensuring the trust of its customers by making no concession from the principle of privacy, quality.

Specialized in the fields of	Nodular Iron Cast Crankshafts for Heavy Vehicles and Passenger Cars & Iron Steel Cast Ground Engaging Tool
Main Products	Ground Engaging Tools
- Todacio	Crankshaft
Comments	Company Profile: Under the motto of "High Performance Shared Power" is a growing trademark onboth domestic and international grounds with strong infrastructure, sophisticated machinery, broad product range, immense production capacity as well as qualified and experienced personnel. MOTUS aims at becoming a rule setting company of its sector on a global level. Motus Crankshaft, which makes use of high quality spheroidal graphite cast iron in connection with the production process al ready succeeded in producing crankshafts within the regular measurement tolerances at global standards under supervision of its experienced metallurgical engineers. While exporting more than half of its productions to European Countries, Motus Crankshaft has proved its item's quality with analysis of customer satisfaction. SCF, Under the motto of "Power that Influence the Sector" is a growing trademark on both domestic and international grounds with strong infrastructure, sophisticated machinery, broad product range, immense production capacity as well as qualified and experienced personnel. MOTUS aims at be coming a rule setting company of its sector on a global level. Motus, which makes use of high quality spheroidal graphite cast iron in connection with the production process already succeeded in producing Ground Engaging Tool (Earth moving Equipments Parts) within the regular measurement tolerances at global standards under supervision of its experienced metallurgical engineers. While
	exporting more than half of its productions to European Countries, Motus has proved its item's quality with analysis of customer satisfaction.

Comments	We started production of spare parts for workholding tools and CNC lathes with TUMA brand as as TUMA Hassas Tutucu Takımlar Medikal Otomotiv Makine San. ve Tic. Ltd. Şti. in 2000. Like all who are aware of none kind of success is coincidence, we have worked all day-night without stopping to produce best quality products with most competitive price for our precious customers. With personnels who are expersts in their fields; We serve our products, Hydraulic Chucks, Pneumatic Chucks, Hydraulic Chucks Jaws, Hydraulic Chucks Flanges, Universal Chucks Flanges, CNC Lathe Bar Pullers, CNC Lathe Workholding Tools, CNC Vertical Lathe Tools, Machine Vices, Precision Rotary Centers, Precision Capped Centers, Precision Pipe Centers, Fixed Centers, CNC Lathe Reduction Hives, Special Workholding Tools and Connection Systems, to your admiration after they are confirmed by our quality control department, which we produced with maticiluous and selfless working by using quality raw materials and machines. TUMA which makes production and sales at European standards is on the way of being a known brand in overseas market as in local market. We became a locally known brand in a short time with a team aming continuous improving and success by keeping up pace with improving

Our company was founded so as to submit the best service to our customers by meeting their expectations. Yemsa aims to satisfy the needs of feed milling sector with his own production machines under the brand Yemsa Makina quickly, high quality and economically through developing technology of machinery and hardware. mark sector with "1" 1 1 1 1 1 1 1 1 1 1 1 1

Yılkar Döküm San. Ve Tic. Ltd. Şti.	Company Data
Company Name	Yılkar Döküm San. Ve Tic. Ltd. Şti.
Street Name	Büyükkayacık Mah. 15. Sk. No:11
Zip Code and City	42050 - Selçuklu/KONYA
Country	TURKEY
Webpage	<u>www.yilkardokum.com.tr</u>
Link Supplier Platform (Purchaser)	
Contact Person 1	Mehmet Uyar YILDIRIM
Position	Trade Manager
Phone	+905304618112
Email	myildirim@yilkardokum.com.tr
Correspondence Language(s)	English
Fax	+903322390036
Contact Person 2	Mehmet Uyar YILDIRIM
Position	Production Manager
Phone	+905334131184
Email	afikret@yilkardokum.com.tr
Correspondence Language(s)	English
Fax	+903322390036
Headquarters (country)	TURKEY
Headquarters (country) Founded in (YYYY)	1996
Industry / Business Sector	Foundry and Machining
Number of Employees	42
Turnover in million EUR	1,6
Top Sales Countries (Supplier)	England, Poland, Italy, France, Macedonia
Own Product Range -	
Business Activities in Detail:	Steel and iron casting
Specialist in what?	
Specialized in the fields of	Foundry and Machineshop
Main Products	Energy Components
Main Products	Energy Components Pump and Valve Parts
Main Products	
Main Products	Pump and Valve Parts
Main Products Total Product Portfolio (Supplier)	Pump and Valve Parts Railway Parts Mining Parts
